

Once upon a time there lived a poor child called "Snow".

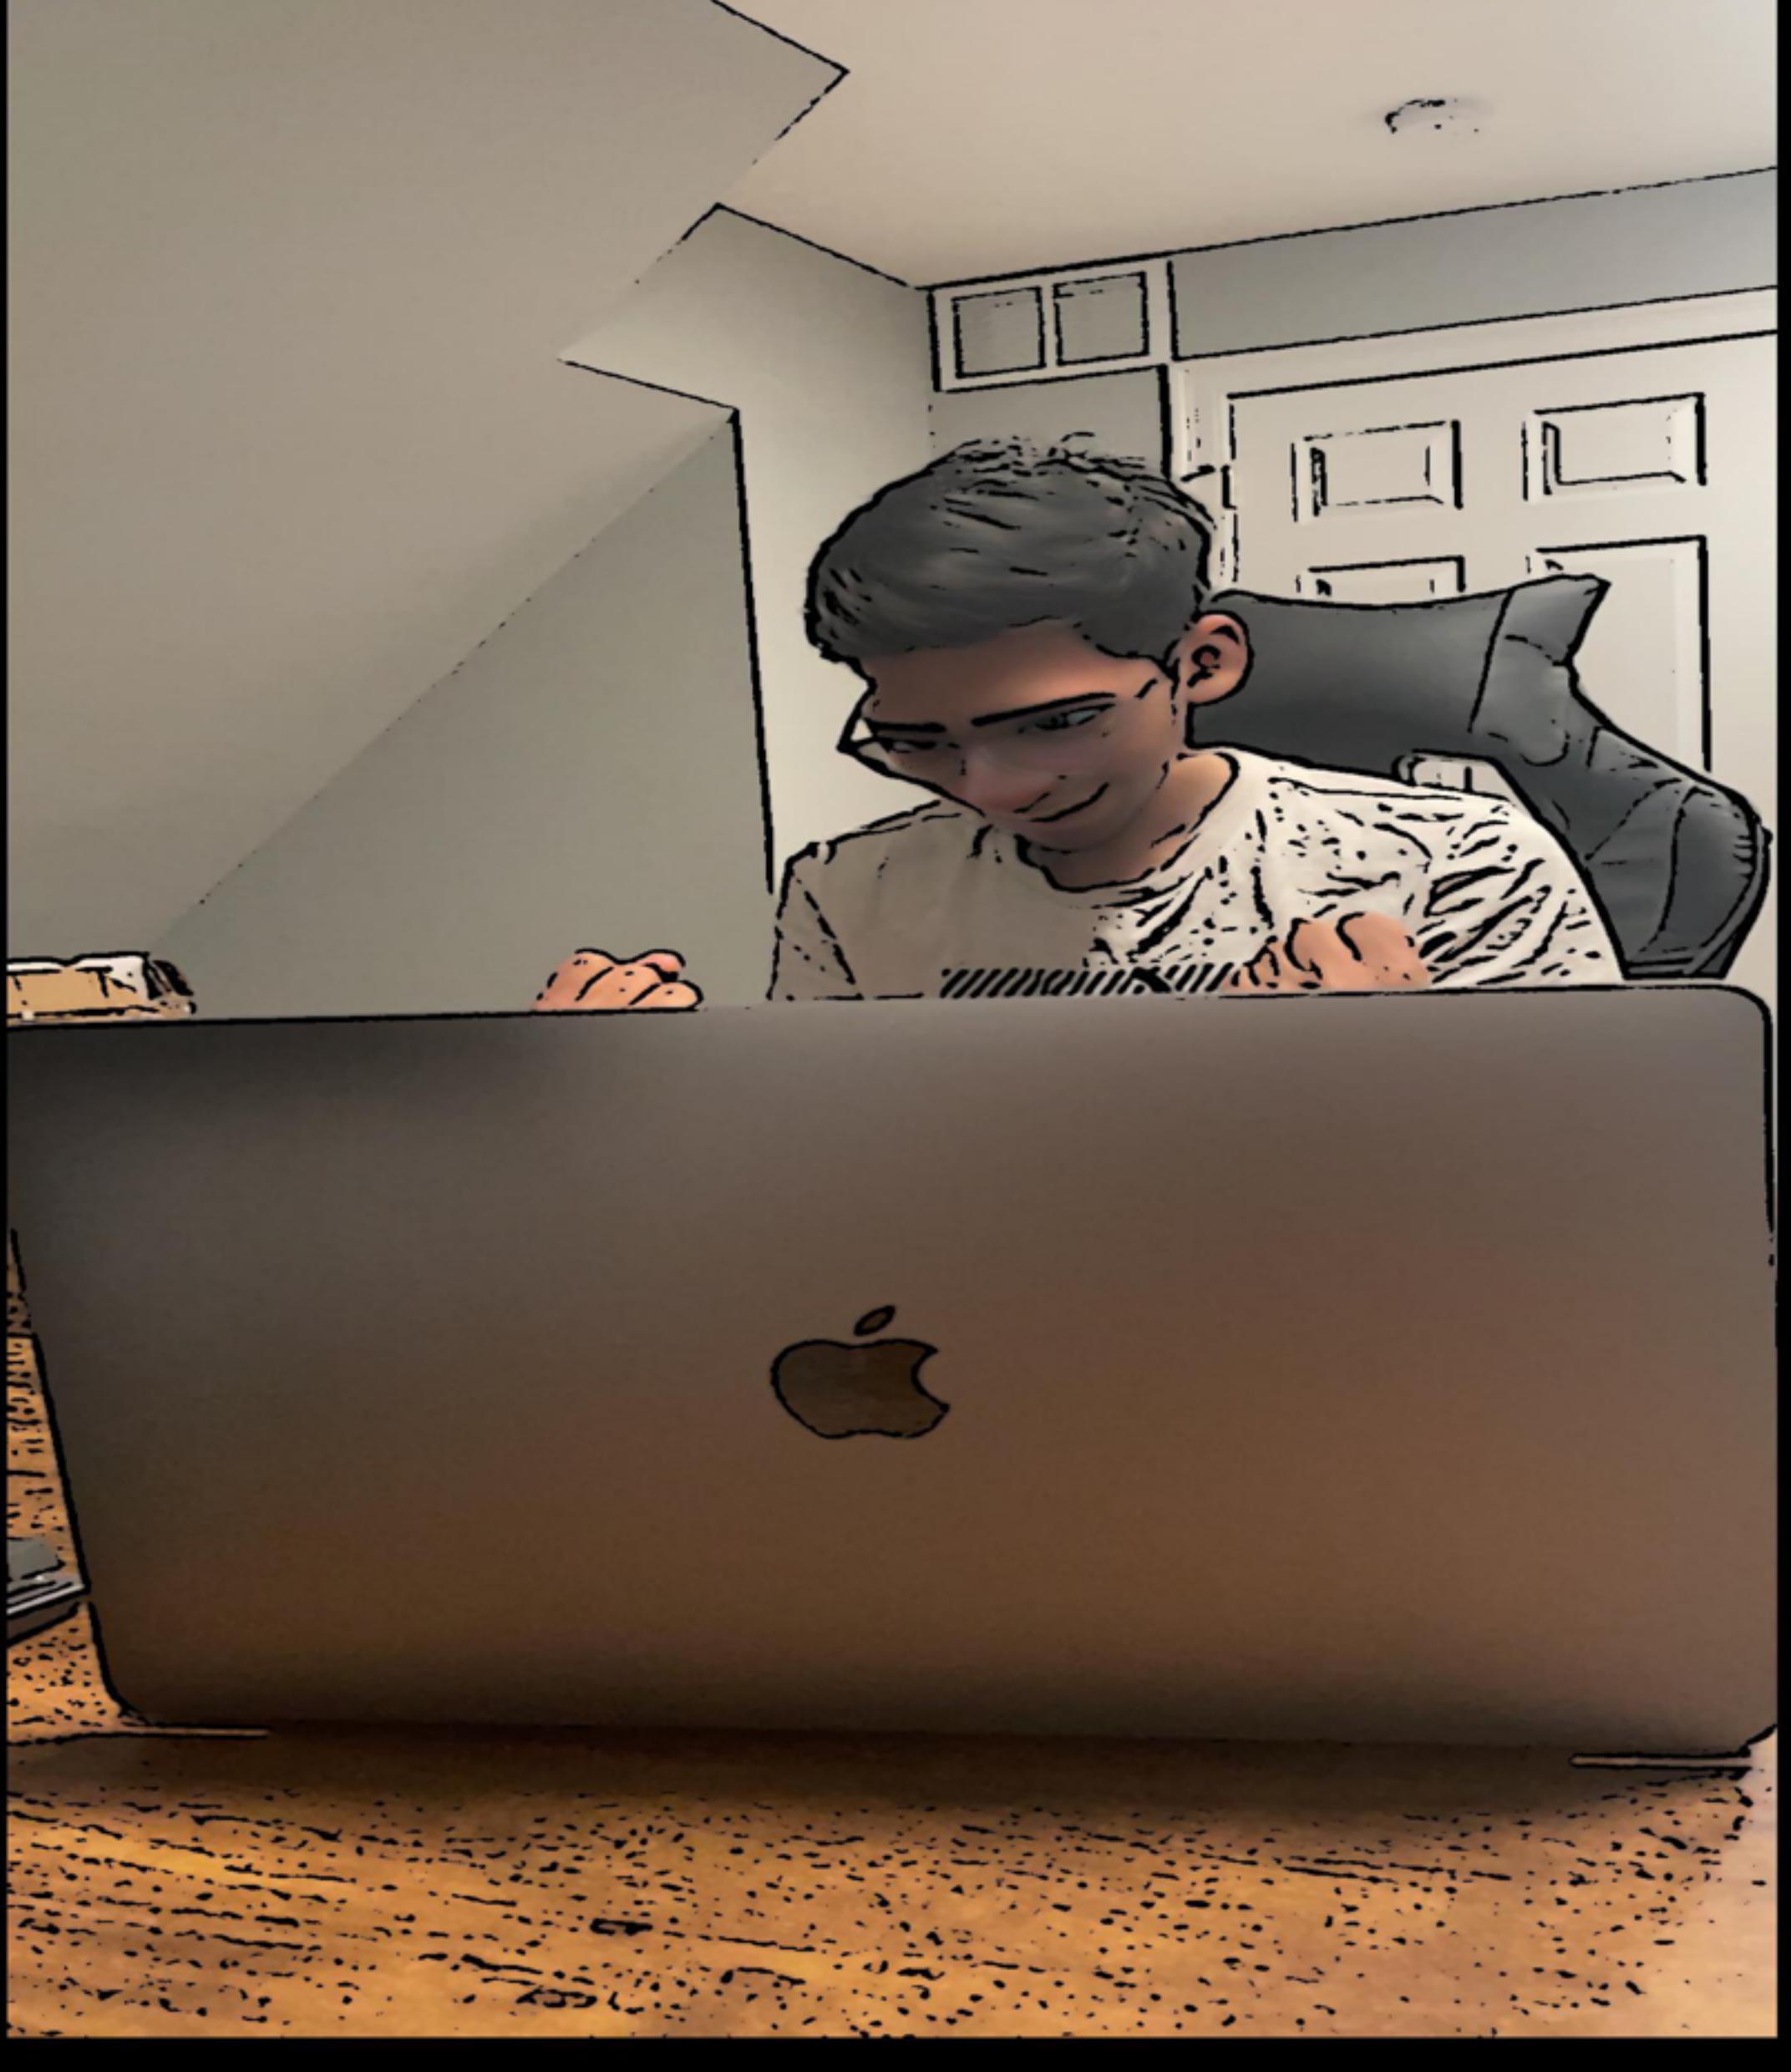

He founded a startup.

He created innovative solutions to the problem.

That startup became a success

He became one of the richest men in the city.

He became very happy and proud.

He is completely satisfied

After some days he got a doubt

Doubt is about his total property value.

He called his personal accountant and asked him to evaluate his entire property value.

His PA said Your total properties value will be more than sufficient for your next seven generations

He got excited after knowing his property value

After some time- he got a very silly doubt.

He said to himself- " How the 8th generation will survive without my money!"

He became very sad after getting that thought

He started feeling stressed and depressed.

He is getting very bad ideas

He is behaving abnormally after that day

He was deprived of sleep as well

He is not feeling well because of his silly thoughts

He asked suggestions from his friends

His friends suggested snow to contact the psychiatrist

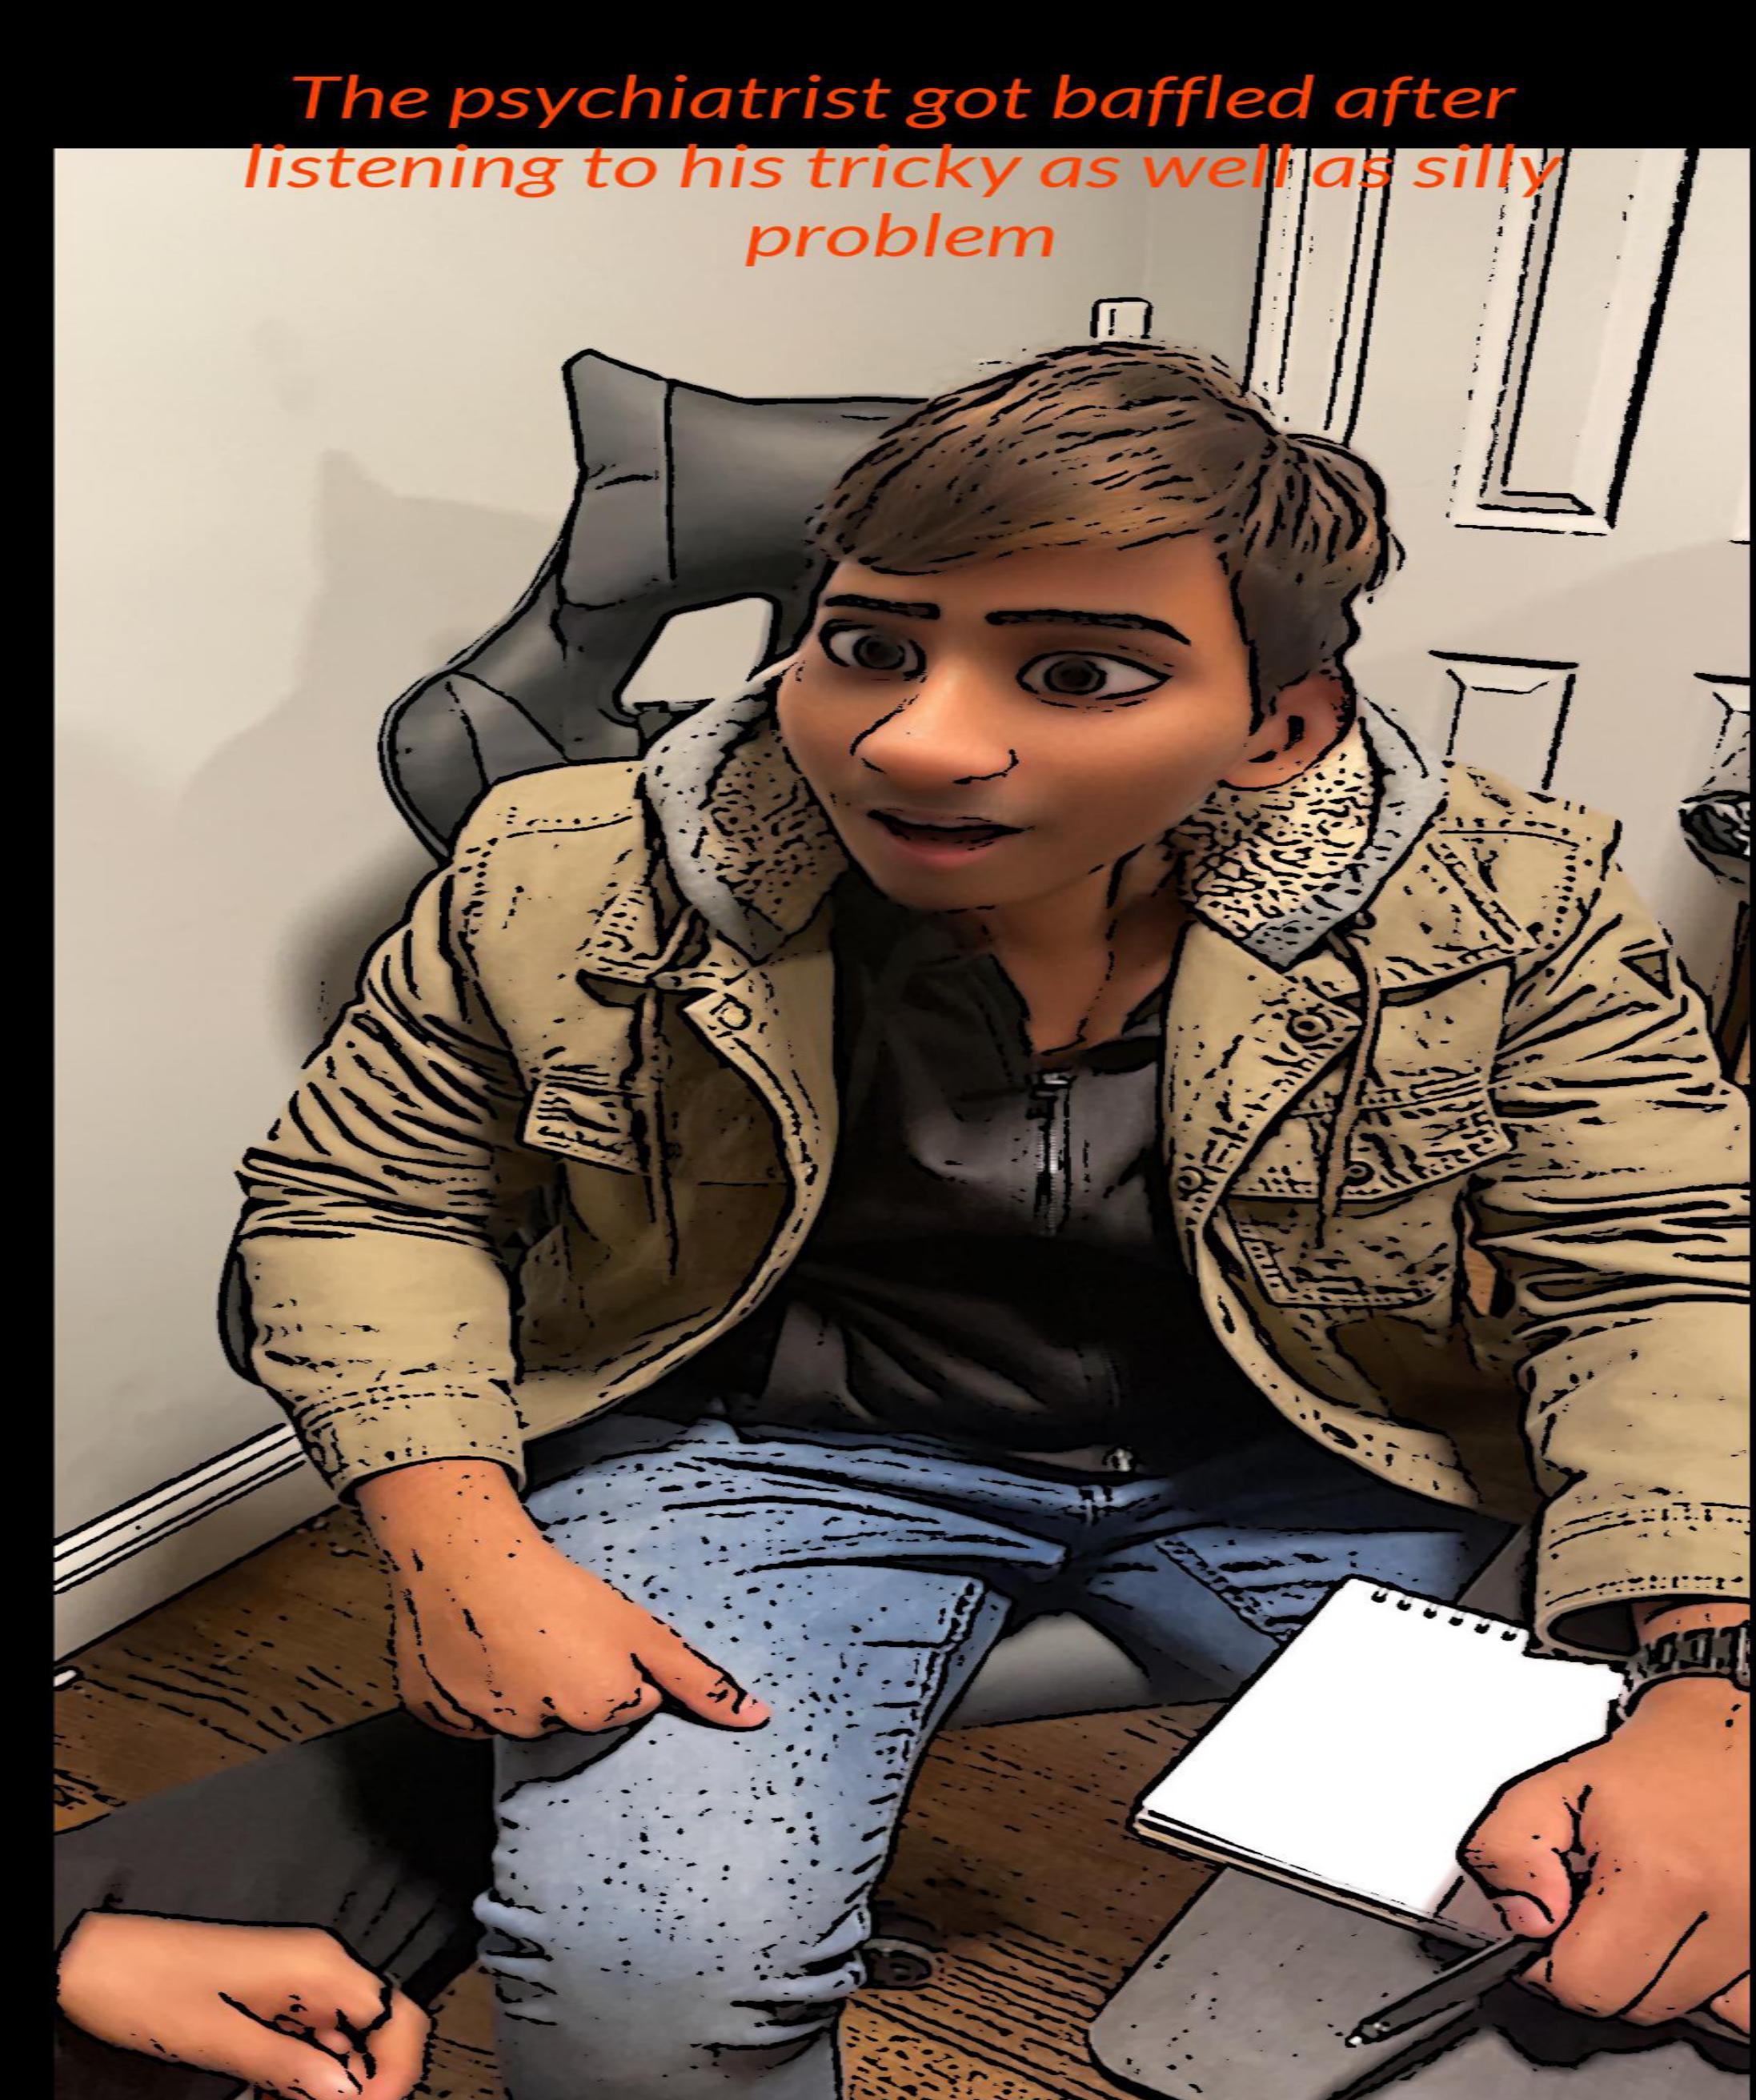

After a lot of hesitation- He went to a psychiatrist

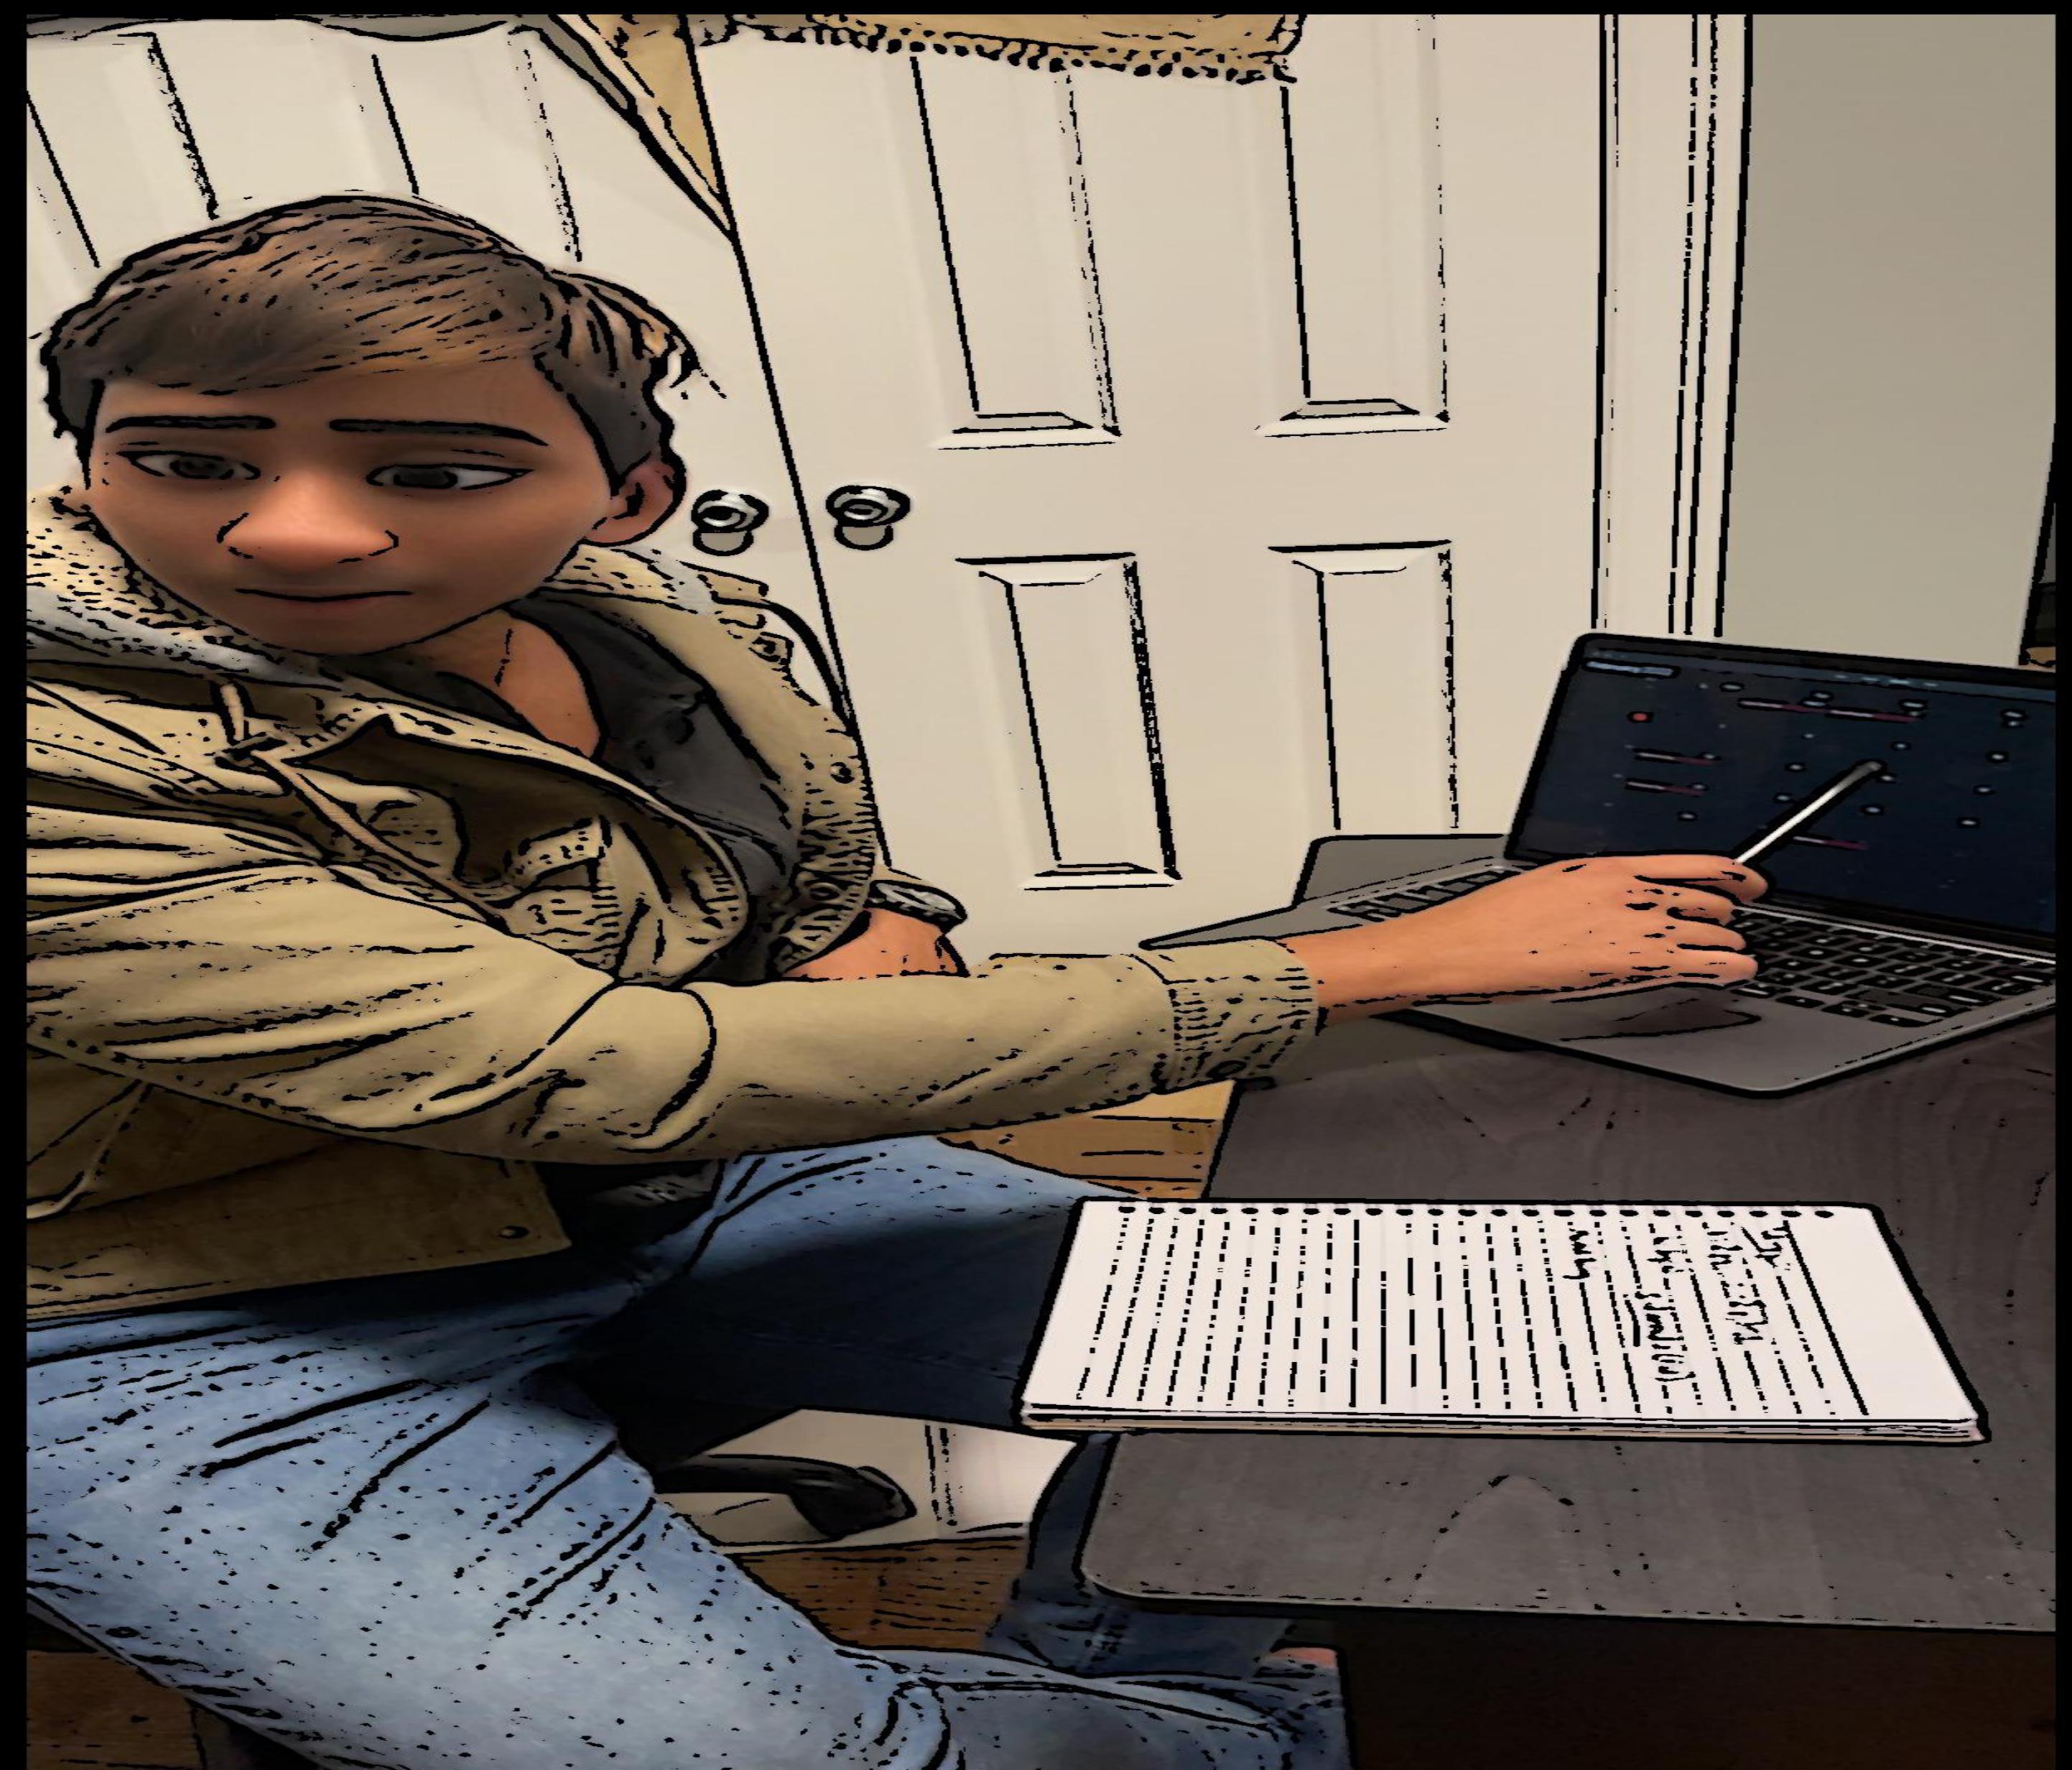

Snow explained everything to him.

The psychiatrist got baffled after listening to his tricky as well as silly problem

He asked snow to come again tomorrow

Snow got angry as he waited too long to come again tomorrow

He went to the doctor again and waited for his treatment

The doctor simply said like this

Go to the Homeless guy sleeping behind the shop at 9:00 AM tomorrow

Give him the lunch for that day only

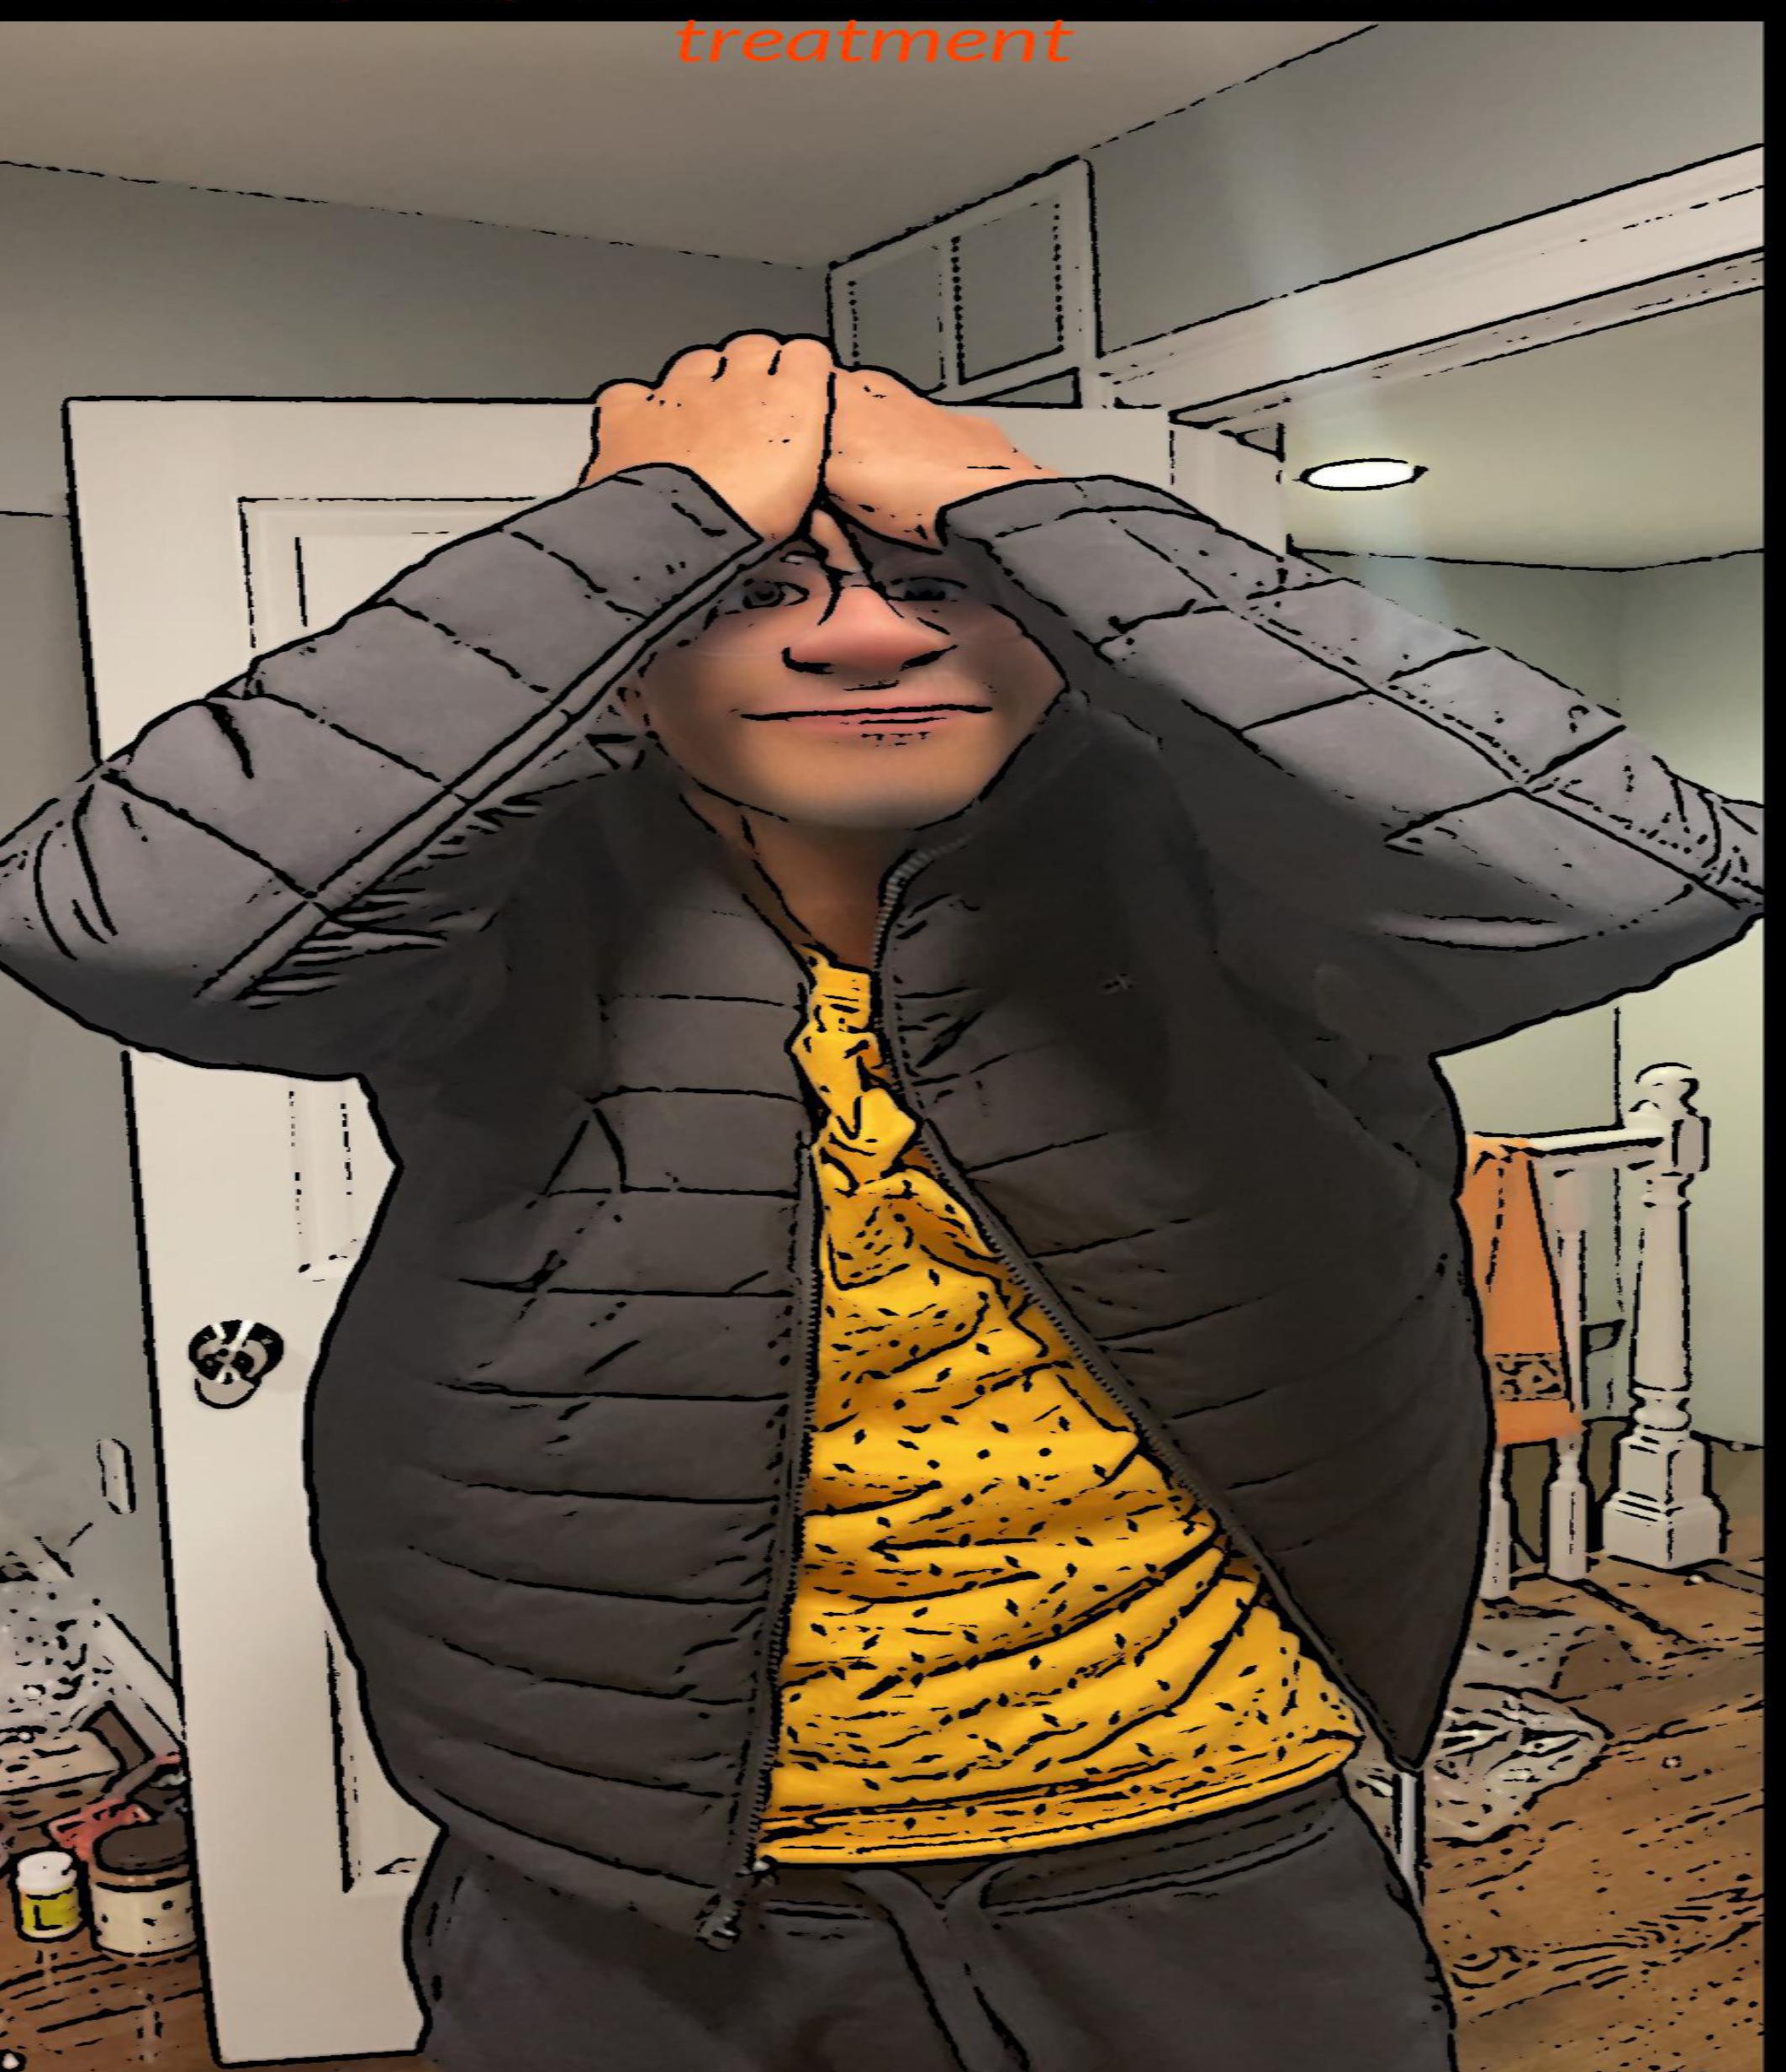

Snow got angry once again

Because of the doctor's silly treatment

Anyway snow needs to follow his treatment

Next day Snow takes 3 weeks of food and groceries and went to the homeless guy at 5:00 PM

At that time Homeless guy is peacefully sleeping with a calm face

Snow gave that food to the homeless guy

He didn't take that food and asked him to "Go away"

Snow got irritated and asked him patiently to take that food

He again didn't take that food

Go away!

Snow got puzzled by his reply'

Finally out of anxiety snow said " why are you not taking this food? It will help you for the next few weeks"

Homeless man replied " I am completely happy today because I ate my lunch and I don't know whether I will live tomorrow or not "

After listening to the words of a beggar Snow realized the importance of self-satisfaction.

Snow said "Even being the richest person in the city I am feeling tensed about my 8th generation and Even he doesn't have food for tomorrow but he is sleeping peacefully"

That thought really struck the snows mind

On that day after realizing what he had lost all these days

He went to the doctor and said " Thank you doctor I finally found out the essence of self-satisfaction "

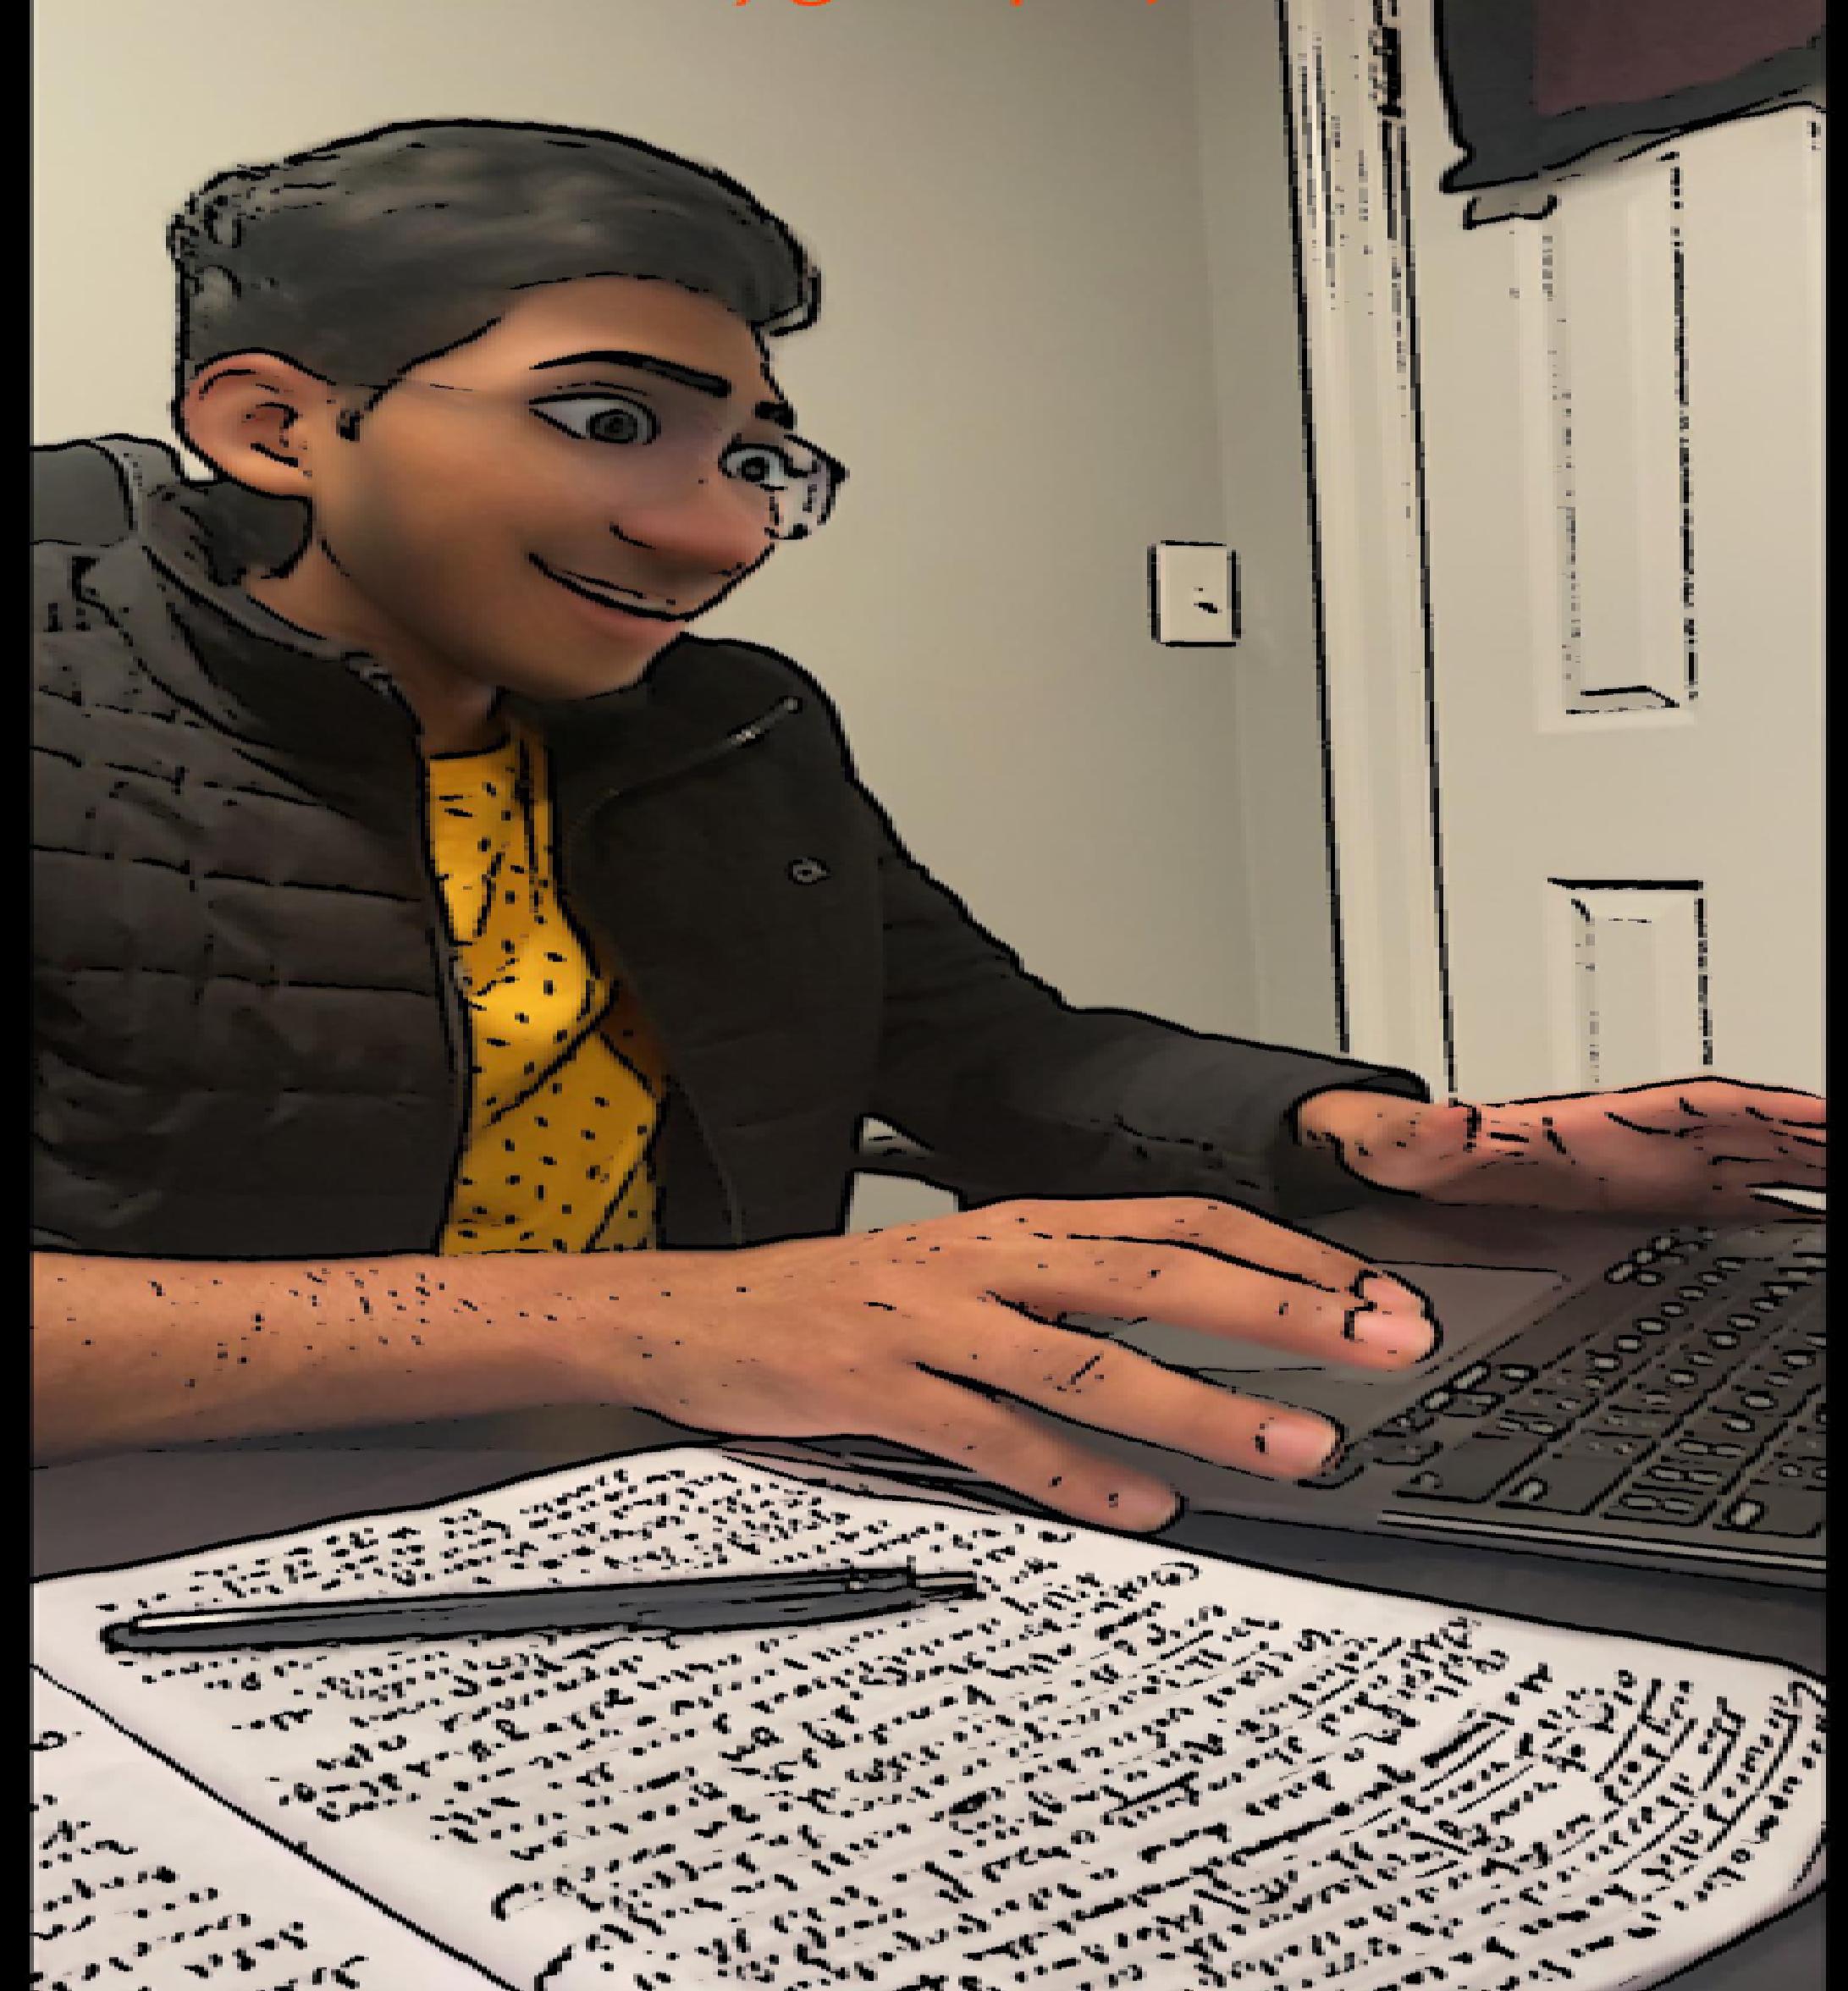

"Life is very short and we need to be happy with what we have "

"You have changed my life "

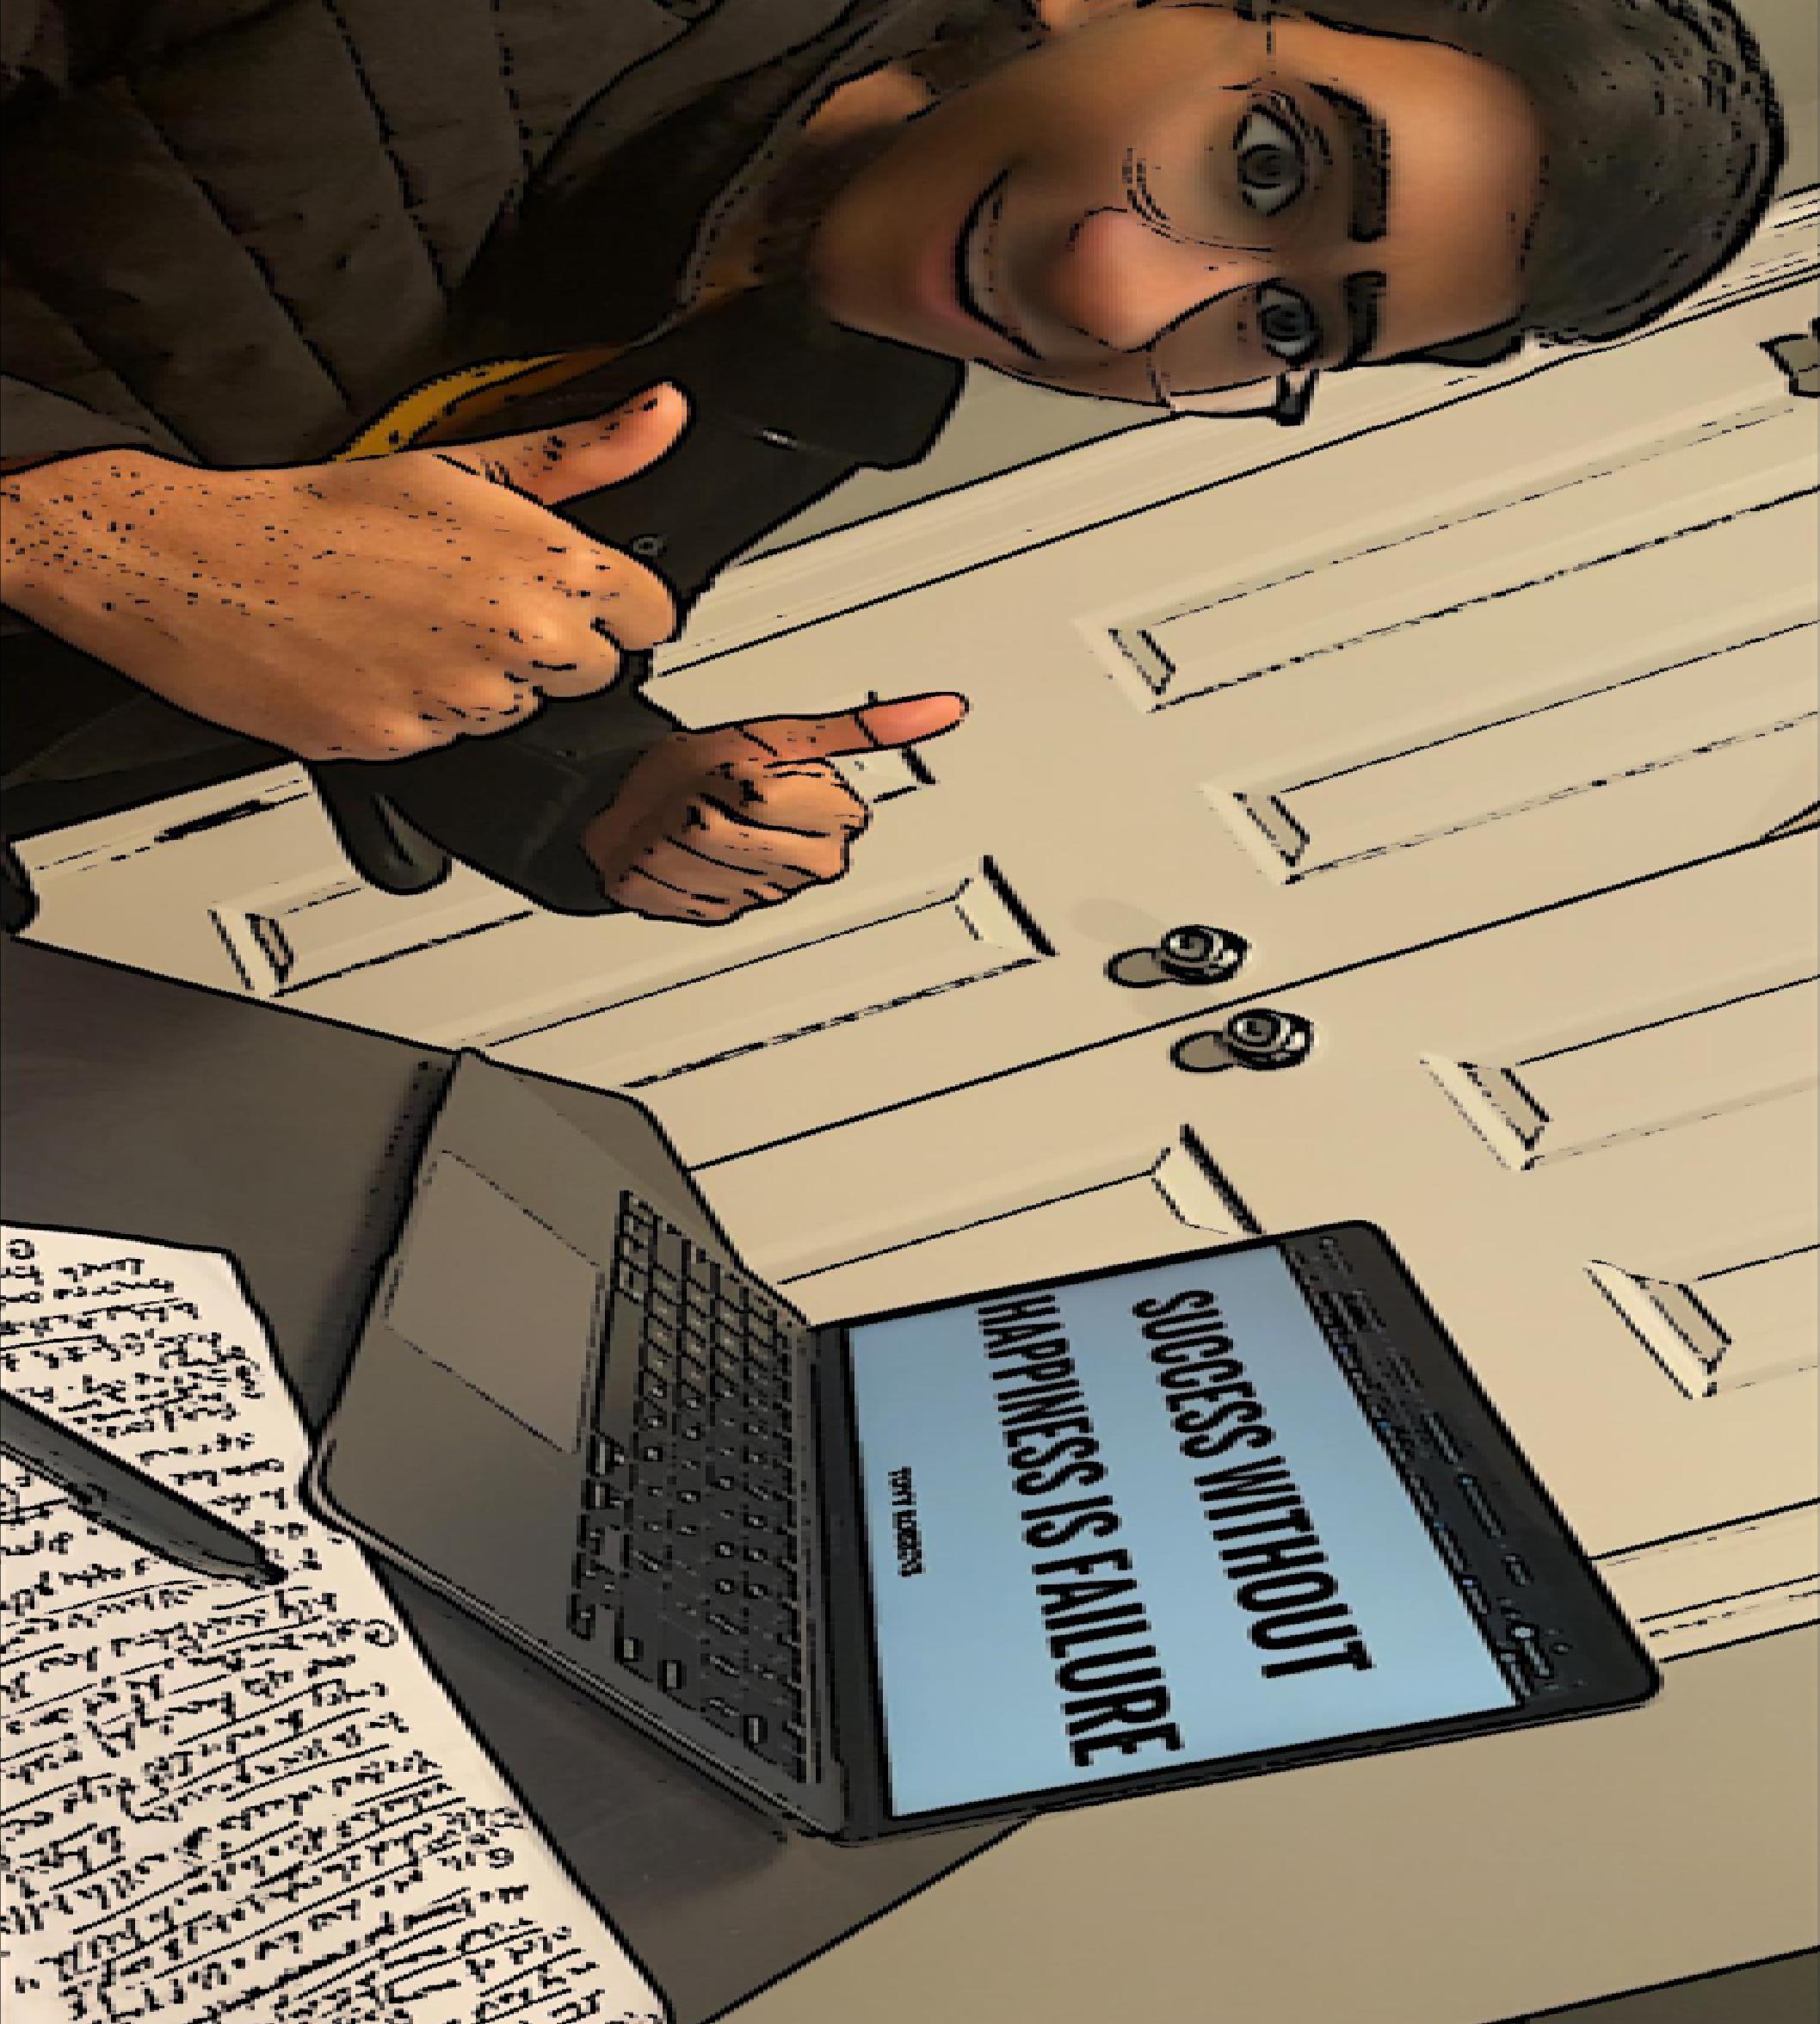

After realizing everything he made a very good profit'

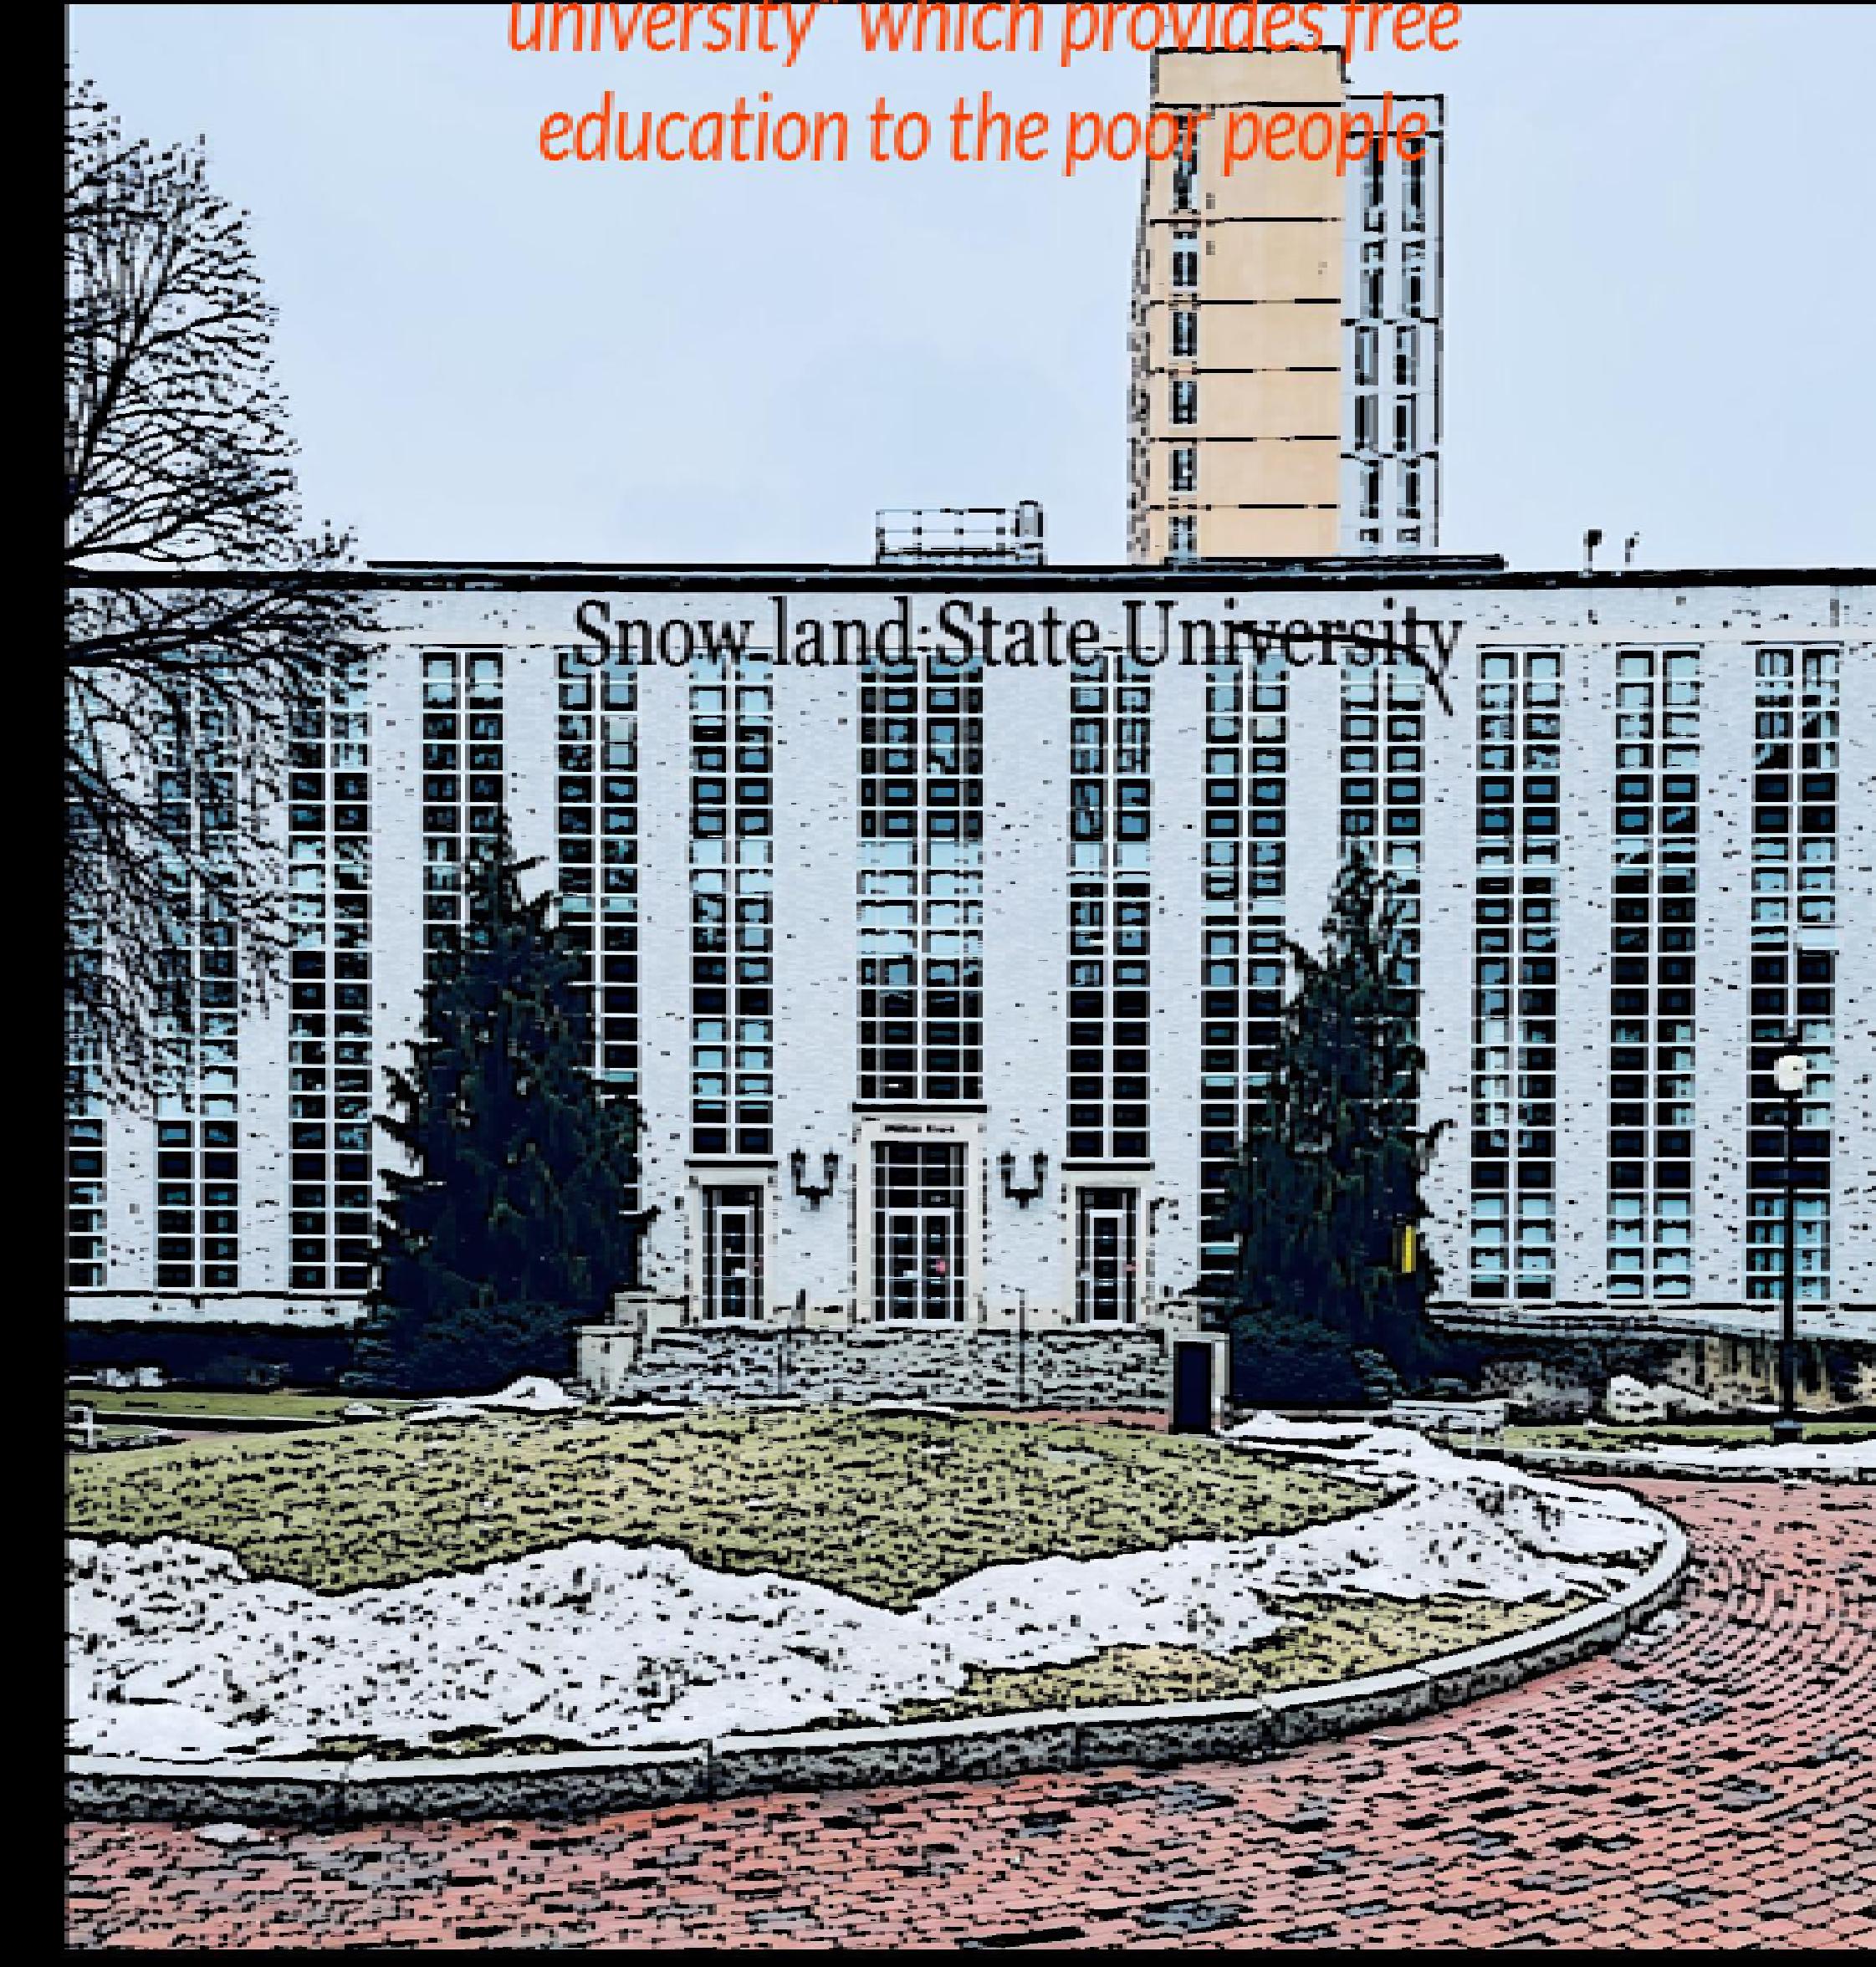

"If we think of problem as an opportunity it will help you achieve your dreams"

he started being satisfied with his achievements

Snow also established a "Snowland university" which provides free education to the poor people

Success

**BELIEVING IN  
YOURSELF  
IS THE SECRET  
TO SUCCESS**
